

**REMARKS**

Claims 1 and 2 stand rejected under 35 U.S.C. 101 as directed to non-statutory subject matter. As requested by the Examiner, Applicant has amended claim one to include new limitations directed to visually perceptible display media as disclosed in the specification. As claim 2 depends from amended claim 1, claim 2 should now also be in condition for allowance. New dependent claims 3 – 10 add limitations directed to specific groups of visually perceptible media used at different method steps. New independent claim 11 is directed toward display of images with projection devices; new dependent claim 13 specifies a group of such projection devices. Finally, new independent means claim 14 is directed to all visually perceptible media disclosed in the specification.

Applicant believes that the application is in condition for allowance and therefore respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully submitted,
